*No tigers have the same black stripes.*

*Tiger eat deer, wild pig and anything else they can find. Tigers are carnivores. Tiger's usually eat about 11-pound's a day. Most tigers attack people when they have been injured and can't find food.*

*The tiger's are endangered. There are only 5,000-7,000 in the wild now. The Bali tiger is extinct. The Javan tiger was extinct in the late 1980's.*

*There are only thirty individual South  
China tiger's in the wild now.*
