## **CREATING AN AUTODIAL REPORT**

PLEASE NOTE: The Autodial Report must first be set up for you by members of the SLS staff and Computer Services. The Autodial program looks for the file every day at 3:40, so if you wish phone calls to be made that evening, the report should be run prior to 3:40.

1. Locate and open your autodial report in your Mandarin folder...Reports...Overdue Lists...Autodialer. There should only be one report in this folder – it will be named simply with three letters for your school and the word "Overdue" – XXXOverdues.rpt

2. The report will look very bare - no headings, etc. This is necessary to obtain the proper formatting for the autodialer

program.

4. In the Print Dialog box that appears, be sure to check "Print to File." (It does not matter what printer you select, because it will not actually print a piece of paper.)	Print Printer Name: \\b04print\B11LJ4050N Properties Status: Ready Type: HP Universal Printing PCL 6 Where: BLDG 11 Comment: NPI8F534B V Print to file
5. Click OK.	Print range Copies
Print         Printer         Name:       \\b04pnot\B11LJ4050N         Status:       Ready         Type:       HP Universal Printing PCL 6         Where:       BLDG 11         Comment:       NPI8F534B         Image       Copies         Image       Copies         Image       Copies         Image       Image         Image       Image         Image       Copies         Image       Image         Image       Image <tr< td=""><td>Number of copies: 1 Pages from: 1 to: 11223 Collate OK Cancel</td></tr<>	Number of copies: 1 Pages from: 1 to: 11223 Collate OK Cancel
6. Accept the default save location and name for the	Print to File
report and click Save.	Save in:     autodialer       Name     Date modified     Type       No items match your search.
7. The "Export Text" dialog bog comes up next – it is IMPORTANT that you make these changes:	
Choose "Tab" as the delimiter UNCHECK "Text Qualifier" UNCHECK "Include field names on first row."	III     File name:     XXXOverdue txt       Save as type:     Text (*txt, *.csv, *tab, *.asc)     Cancel
Export Text Choose the delimeter that separates your fields Tab Comma Comma Cother Cosemicolon Space Text qualifier:	

8. Now you will enter the overdue ranges. The example below is looking for books that are more than two weeks overdue but less than 3 months overdue.

• Enter the starting number of days overdue you wish to use and click OK. (If you want all overdues, enter 1).

	Starting Number of Days Overdue	×
	Enter the Starting Number of Days Overdue of the Bange for which you	ОК
I	wish to generate a List Of Overdue Items:	Cancel
	14	
	I ·	

• Enter the ending number of days overdue you wish to use and click OK.

Ending Number of Days Overdue	×

9. If the Report Tool prompts you to choose your database, do so. The report will then process and place a file in the Autodialer folder.

The Autodialer Program will look in the Autodial folder every day at 3:40. If it finds a file, it will place the phone calls that evening and you should receive an email the following day with a report of which phone calls it made and whether it left a message (either in person or on the answer machine) and also whether it did not attempt to call. If there are names listed that it did NOT attempt, it means that there is no phone number in the Student Information Systems record (such as SASI or SchoolTool). It does not use the phone numbers in Mandarin.
